

To Use or Not to Use? – Dietary Supplement Use in Able-Bodied and Spinal Cord Injured Individuals

Dissertation

zur

**Erlangung der naturwissenschaftlichen Doktorwürde
(Dr. sc. nat.)**

vorgelegt der

Mathematisch-naturwissenschaftlichen Fakultät

der

Universität Zürich

von

Joëlle Leonie Flück

von

Hubersdorf SO

Promotionskomitee

Prof. Dr. Max Gassmann (Vorsitz)
PD Dr. Claudio Perret (Leiter der Dissertation)
PD Dr. Anna Yulievna Bogdanova
Prof. Dr. Ian Frew

Zürich, 2016

Contents

Summary.....	5
Zusammenfassung.....	7
1. General introduction	9
1.1. Prevalence of supplement use.....	9
1.1.1. Prevalence of supplement use in able-bodied athletes.....	9
1.1.2. Prevalence of supplement use in wheelchair athletes	10
1.2. Physiological consequences of a spinal cord injury.....	11
1.3. Classification of supplements: The ABCD system.....	13
1.3.1. Category A.....	13
1.3.2. Category B.....	14
1.3.3. Category C.....	14
1.3.4. Category D.....	14
1.4. Supplements investigated in this thesis.....	15
1.4.1. Caffeine.....	15
1.4.2. Sodium citrate	16
1.4.3. Vitamin D	18
1.4.4. Nitrate / Beetroot juice	18
1.5. Outline of the thesis	19
1.6. References.....	22
2. Influence of caffeine and sodium citrate ingestion on 1500 m exercise performance in elite wheelchair athletes: a pilot study	28
2.1. Abstract.....	29
2.2. Introduction	30
2.3. Methods	32
2.3.1. Participants	32
2.3.2. Study design	32
2.3.3. Dosage.....	33
2.3.4. Blood measurements.....	33
2.3.5. Gastrointestinal sensations.....	34
2.3.6. Statistics.....	34
2.4. Results	35
2.5. Discussion.....	36
2.5.1. Conclusions	41
2.6. References.....	42
3. Reliability of a 3min all-out arm crank ergometer exercise test.....	44
3.1. Abstract.....	45
3.2. Introduction	46
3.3. Methods	47
3.3.1. Participants	47
3.3.2. Experimental design	47
3.3.3. 3 min all-out exercise test.....	47
3.3.4. Statistics.....	48
3.4. Results	49
3.5. Discussion.....	49
3.5.1. Mean power and total work.....	51
3.5.2. Peak power.....	52
3.5.3. Fatigue index	53
3.5.4. Other parameters.....	53
3.5.5. Conclusion	53
3.6. References.....	54
4. Ergogenic effects of caffeine consumption in a 3 min all-out arm crank test in paraplegic and tetraplegic compared to able-bodied individuals	56
4.1. Abstract.....	57
4.2. Introduction	58

4.3.	Methods	60
4.3.1.	Participants	60
4.3.2.	Study design	60
4.3.3.	Exercise protocol	61
4.3.4.	Dosage.....	62
4.3.5.	Blood measurements.....	62
4.3.6.	Statistics.....	62
4.4.	Results	64
4.4.1.	Exercise performance.....	64
4.4.2.	Blood parameters	64
4.5.	Discussion.....	68
4.5.1.	Exercise performance.....	68
4.5.2.	Blood parameters	69
4.5.3.	Conclusions	70
4.6.	References.....	71
5.	Acute effects of caffeine on heart rate variability, blood pressure and tidal volume in paraplegic and tetraplegic compared to able-bodied individuals	73
5.1.	Abstract	74
5.2.	Introduction	75
5.3.	Methods	76
5.3.1.	Participants	76
5.3.2.	Experimental design	77
5.3.3.	Heart rate variability	77
5.3.4.	Blood pressure and tidal volume	78
5.3.5.	Blood sampling and analysis	78
5.3.6.	Caffeine and placebo administration	78
5.3.7.	Statistics.....	79
5.4.	Results	80
5.5.	Discussion.....	82
5.5.1.	Heart rate variability	82
5.5.2.	Blood pressure and tidal volume	84
5.5.3.	Blood parameters	84
5.5.4.	Limitations.....	85
5.5.5.	Conclusion	85
5.6.	References.....	87
6.	Vitamin D deficiency in Swiss elite wheelchair athletes	90
6.1.	Abstract.....	91
6.2.	Introduction	92
6.3.	Materials and Methods.....	93
6.3.1.	Blood sampling and analysis	93
6.3.2.	Statistical Analysis	93
6.4.	Results	95
6.5.	Discussion.....	96
6.5.1.	Conclusion	99
6.6.	References.....	100
7.	Is beetroot juice more effective than sodium nitrate? - The effects of equimolar nitrate dosages of nitrate-rich beetroot juice and sodium nitrate on oxygen consumption during exercise.....	102
7.1.	Abstract.....	103
7.2.	Introduction	104
7.3.	Materials and Methods.....	105
7.3.1.	Study design	105
7.3.2.	Supplement preparation	106
7.3.3.	Exercise testing.....	106
7.3.4.	Blood collection and analysis.....	107
7.3.5.	Gastrointestinal sensations.....	107
7.3.6.	Statistical analysis	107
7.4.	Results	109

7.4.1. Respiratory parameters	109
7.4.2. Blood parameters	110
7.5. Discussion	112
7.5.1. Oxygen consumption	112
7.5.2. Blood parameters	113
7.5.3. Blood pressure	114
7.5.4. Conclusions	116
7.6. References	117
8. Supplementation and performance in spinal cord injured elite athletes: a systematic review .	
.....	120
8.1. Zusammenfassung	121
8.2. Summary	122
8.3. Introduction	123
8.4. Methods	124
8.5. Results	125
8.6. Discussion	127
8.6.1. Conclusion	128
8.7. References	129
9. General discussion	130
9.1. Influence of caffeine and sodium citrate on performance in spinal cord injured participants	130
9.2. Vitamin D status in Swiss elite wheelchair athletes	133
9.3. Influence of dietary nitrate on oxygen consumption in trained men	134
9.4. Clinical implications and recommendations	135
9.5. Limitations and research perspectives	136
9.5.1. Limitations	136
9.5.2. Future perspective	137
9.6. Conclusions	138
9.7. References	140
Curriculum Vitae	144
Acknowledgements / Danksagungen	147
